# THINKTOOL MASTER CV

## 10.1-INCH HD DIAGNOSTIC SCAN TOOL

The THINKTOOL Master CV is a 10-inch intelligent diagnostic tool designed for heavy-duty, medium-duty, and commercial vehicles. It supports both On-Highway and Off-Highway applications with advanced Bi-Directional capabilities. Technicians can perform comprehensive functions including full vehicle scans, reading and clearing fault codes, viewing live data streams, running actuation tests, performing special functions, and carrying out DPF regenerations.

## 13 MAINTENANCE FUNCTIONS

## MAIN FEATURES

- **Vehicle Coverage:** Designed for heavy-duty, medium-duty, and commercial vehicles across On-Highway and Off-Highway applications.
- **Size:** Features a large 10-inch intelligent diagnostic tablet.
- **Advanced Diagnostics:** Offers Bi-Directional control capabilities.
- **Core Functions:** Perform full vehicle scans, read and clear fault codes, and view live data streams.
- **Specialized Tasks:** Supports actuation tests, various special functions, and DPF regenerations.
