TOPSCAN PRO

POWERFUL SCANNER IN YOUR POCKET

Turn your smartphone into a full-service scan tool trusted by professional techs and serious DIYers worldwide. The TopScan Pro combines pro-level diagnostics, powerful service resets, and the latest protocols—all in one compact, wireless tool. Whether you're doing routine maintenance, special resets, or troubleshooting the newest vehicle models, TopScan Pro gives you the confidence and control to get it done right.

MAIN FEATURES

- **Full-System Diagnostics:** Scan up to 120+ brands, with access to every module (engine, transmission, ABS, airbag, and more) for thorough troubleshooting.
- **Bi-directional Control:** Communicate with your vehicle and manually activate components for faster diagnosis.
- **Comprehensive Maintenance Services:** From oil and battery resets to injector coding and gearbox matching, keep vehicles running at peak performance.
- **Broader Vehicle Coverage:** Covers the latest vehicle tech with support for CAN-FD, DoIP, and security gateways (FCA, Renault, Nissan, and more).
- **Vehicle Performance Testing:** Get a true understanding of your vehicle's performance. Measure acceleration (0-60 MPH or 0-100 km/h), and other key performance metrics with more accuracy, and without a stopwatch.
- **Live Data Streaming:** Monitor data streams in real time and compare trends in your choice of numerical, graph, and other formats to catch problems early.
- **1-Year Free Updates:** Access the latest software at no additional cost for the first year, and always have the power to read full-system fault codes.
