

AAQ 2T CAR STACKER (LOW ROOF MODEL)

The AAQ 2T Residential 2 Car Stacker is a compact and efficient solution for optimising parking space in home garages and apartment buildings.

FEATURES

- Worksafe Design Registered, ensuring compliance with Australian Standards 1418.9 for safe operation
- Heavy-duty dual-stage hydraulic cylinders and balance chains for a smooth and level lift
- Powerful 2.2kw hydraulic power unit that raises the platform to full height in under 60 seconds
- Electronic safety locks and a secondary anti-fall mechanism to prevent any unintended lowering of the platform

CONCRETE

150mm thick, reinforced, free from cracks/seams, 30mpa & cured 28+ days
