CYLINDER

3-SPEED  
ADJUSTABLE

# THINKCAR TTC-633

## TILTBACK DESIGN

Thinkcar TTC-633 Tyre Changer – Features a rear tilt arm for smooth operation, a sturdy 58 kg dual-structure body, and a powerful 2000–2500 kgf aluminum cylinder. The NAAR auxiliary arm ensures stable, all-directional pressure, while the 3-speed adjustable tire shovel enhances efficiency.

## MAIN FEATURES

- **Rear Tilt Arm Design:** Designed for smooth and effortless sliding, the rear tilt arm allows easier mounting and removal of tyres, reducing manual effort and improving workflow efficiency.
- **Sturdy Dual-Structure Body:** Built with a robust 58 kg dual-structure frame, the TTC-633 provides excellent stability and durability, ensuring long-lasting performance in demanding workshop environments.
- **Powerful Aluminum Cylinder:** Equipped with a 2000–2500 kgf aluminum large cylinder, it delivers strong and consistent force for tyre changing, making even stubborn tyres easier to handle.
- **NAAR Auxiliary Arm:** The NAAR auxiliary arm applies pressure in all directions, enhancing operational stability and safety while supporting a wide range of tyre sizes.
- **3-Speed Adjustable Tyre Shovel:** Offers three adjustable speeds for the tyre shovel, allowing precise control and faster, more efficient tyre mounting and demounting.

## ACCESSORIES

Digital Display Inflator	1 pcs
Gasket	1 pcs
Lubricant	1 box
Crowbar	1 unit
IT Fast Inflation Equipment	OPTIONAL
Motorbike Clamp	OPTIONAL

## SPECIFICATIONS

Model No.	TTC-633
External Clamping Range	10"-21"
Max Wheel Diameter	960mm
Max Wheel Width	315mm
Working Pressure	8-10bar
N.W/G.W	225/345kg
Voltage	220V
Tyre Shovel Pressure	2000-2500kg
