

THINKCAR GDI 200

Enhanced Piezoelectric Fuel Injector Cleaner

THINKCAR GDI 200 is an upgrade version of fuel injector cleaner and tester with enhanced ultrasonic cleaning and intelligent testing function, to support not only standard injectors but also GDI injectors and Piezoelectric injectors including EFI,SFI,SPI,GDI, Piezoelectric Injectors. The GDI 200 is with 6-Cylinder, which can test and clean 6 injectors in one time with higher efficiency.

Features

- **Enhanced Cleaning & Testing**
GDI 200 support not only standard injectors but also GDI injectors and Piezoelectric injectors including EFI,SFI,SPI,GDI, Piezoelectric Injectors.
- **Automatic Cleaning & Testing**
Automatic cleaning, testing and real-time parameter adjustment of the fuel injectors.
- **Multi Voltage Selection**
GDI 200 provides various types of voltage output (12V, 70V, 90V,120V,150V, 180V) to be selected to adapt for different types of injector testing.

Ultrasonic Cleaning

Intelligent Testing

6-Cylinder

Support GDI & Piezoelectric injectors

Specifications

Model No.	GDI 200
Main Unit Power Supply	240V
Input Power	AC220V
Ultrasonic Cleaner Power	60W
Resistance Test Accuracy	0.1Ω
Simulated RPM range	100 - 9,900 RPM
Working Pressure	0 - 8 Bar
