THINKOBD 100

ENHANCED OBDII SCANNER

The ThinkOBD 100 is a compact and user-friendly OBDII scanner designed for car owners and DIY enthusiasts. It supports all standard OBD2 functions, including reading and clearing DTCs (Diagnostic Trouble Codes), monitoring O2 sensors, and performing EVAP system tests for emission inspections.

With a built-in DTC lookup library, users can easily view code definitions without needing an external reference.

ENHANCED OBD FUNCTIONS

Read Codes

Clear Codes
