THINKCAR PROG

ADVANCED KEY FOB PROGRAMMER AND IMMO TOOL

ALL IN ONE KEY PROGRAMMER

SUPPORT 1000+ ECU, MCU, EEPROM

EXPANDED EEPROM FUNCTIONS

REPLACE ANTI-THEFT DEVICE PARTS

READ & WRITE KEY CHIPS

COMPATIBLE WITH THINKTOOL SERIES

THINKTOOL EXPERT 399

THINKTOOL EXPERT 394

THINKTOOL EXPERT 391

THINKTOOL EXPERT 195

THINKCAR PROG

ADVANCED KEY FOB PROGRAMMER AND IMMO TOOL

The THINKCAR PROG advanced key and chip programmer reads, writes and programs car keys and chips. It supports 1,000+ common ECUs, MCUs and EEPROMs, and integrates with THINKCAR diagnostic tools. Key capabilities include programming infrared keys for Mercedes, generating special keys, reading BMW engine INS codes, and reading/writing BMW CAS4+/FEM chips.

PACKING LIST

THINKCAR PROG 2	Power Cord & Adapter
Diagnostic Cable	INS Cable V1
INS Cable V2	BENCH Cable vi
BENCH Connection Cable Type A	BENCH Connection Cable Type B
BENCH Connection Cable Type C	BENCH Connection Cable Type D
BENCH Connection Cable Type E	EEPROM Chip Adapter
EEPROM Converter	MCU Converter V1
MCU Converter V2	MCU Cable V1
Benz Infrared Analog Acquisition Key	User Manual
Packing List	

MAIN FEATURES

- **All-in-One Key & Anti-Theft Chip Reader/Writer:** Advanced tool for reading, writing, and programming vehicle keys and anti-theft chips.

- **IMMO Data Management:** Backup and restore immobilizer (IMMO) data efficiently for secure key programming.

- **Wide ECU/MCU/EEPROM Support:** Compatible with 1,000+ common ECUs, MCUs, and EEPROMs for broad vehicle coverage.

- **Volkswagen 4th-Generation UDS Engine Chips:** Supports read and write functions for VW/Audi 4th-gen UDS engines, including MQB platform models.

- **Engine & Gearbox Module Replacement:** Allows Volkswagen/Audi 4th-gen engine replacements (post-2016) and MQB platform gearbox, dashboard, and steering column replacements.

- **Dashboard Replacement Without Disassembly:** Direct harness reading enables VW/Audi dashboard replacement without removing the chip, except for 35XX and NEC 24C64 14+ models.

- **Audi Key & Module Programming:** Supports Audi 4th-gen EZS, comfort computer, and KESSY chip replacements, as well as 5th-gen gearbox ECU replacement.

- **BMW Gearbox Data Management:** Clear data for BMW E, F, and G chassis 8HP gearboxes for smooth module replacement and programming.
