

THINKCAR TFJ 330/340

DUAL PUMP JACK

The Thinktool TFJ 330/340 Dual Pump Floor Jack is engineered for speed and convenience, featuring a dual pump design that delivers faster lifting performance alongside an ultra-low 85mm minimum jack pad height for easy positioning under low-clearance vehicles. Built with the user in mind, it includes a foam-grip operating lever for comfortable handling, reinforced front wheels, and a 360° swivel rear wheel for effortless maneuverability in tight spaces. A built-in magnetic tool tray keeps jack pads secure and accessible at all times, while the foldable side panel design enhances portability and loading capability - making the TFJ 330/340 a practical and reliable choice for both professional and home garage use.

MAIN FEATURES

- Dual pump design for faster, more efficient lifting
- Ultra-low profile with a minimum jack pad height of just 85mm for easy vehicle entry
- Built-in magnetic tool tray keeps pads secure and within reach
- Reinforced front wheels and 360° swivel rear wheel for smooth, effortless maneuverability
- Foldable side panels for improved storage and loading capacity
- Foam-grip operating lever for enhanced comfort during use
