

# THINKCAR PLD 222

One Key Switch Between TURBO and EVAP Mode!

THINKCAR PLD 222 is a new generation of automotive leak tester with Turbo and EVAP model selection. It's widely use in automotive repairs to position cars motorcycles leakage on the pipe systems quickly and exactly, such as Intake System Test, Exhaust Systems Test, Cooling System Test, Crankcase system test, Car Sealing Test, Fuel Tank System Test, Turbo System Test, Various Pipe Fittings Test.

## Advantages

- **Wide Applications**

The PLD 222 is universally applicable to all types of vehicles, supports comprehensive detection across all systems in your vehicles, including but not limited to EVAP, EGR, Vacuum, Engine, Intake, Exhaust, Fuel Tank System and various pipe fittings.

- **Brand New Design**

Compact patented design. Small and portable, the overall weight is only 3kg.

- **Easy to Use**

Features a faster and more powerful built-in air pump motor, no need to reply

on external compressor. With a pressure range of 1.2 bar to 3.5kpa, and a smoke output of 12L/Min, the PLO 222 is easy to conduct smoke tests anywhere.

- **One key to switch to TURBO and EVAP mode**

Support both TURBO and EVAP mode. Easy to switch and use!

- **Air Mode & Smoke Mode**

Provides two test mode. The air intake flow and smoke output are adjustable.

## Packing List

 Main Unit 1 Set	 Power Supply Cable 1 Pc	 Smoke Hose 1 Pc	 Standard Cone Adapter 1 Pc	 EVAP Special Connector 1 Pc
 Funnel 1 Pc	 Airbag 1 Pc	 Hard rubber hose plug 8 Pcs	 Screwdriver 1 Pc	

## Specifications

Model No.	THINKCAR PLD 222
Output Pressure	1-2bar - TURBO Mode 3.5kpa EVAP Mode
Flow Amount	8-15L / Min
Oil Volume	30ml
Supply Voltage	DC 12V
Power Supply Cable Length	2.5M
