

THINKCAR TPC 101

5-LEVEL WORKSHOP TROLLEY

Maximize your workshop efficiency with the Thinkcar TPC 101, a premium workshop trolley engineered for the modern technician. More than just a cart, it's a heavy-duty mobile command centre designed to keep your diagnostic tools, power accessories, and hardware organized and within arm's reach.

MAIN FEATURES

- **Purpose-Built Storage:** Specifically tiered to house Thinkcar diagnostic tablets, VCI modules, and heavy-duty cables without clutter.
- **Rugged Mobility:** Features industrial-grade casters and a reinforced frame, ensuring smooth transport across busy garage floors.
- **Space-Saving Footprint:** Its sleek, vertical design provides massive storage capacity while occupying minimal floor space.
- **Professional Organization:** Keep your high-value equipment secure, charged, and ready for the next scan, elevating the overall workflow of your shop.

THINKCAR TPC 400

4-LEVEL WORKSHOP TROLLEY

Built by Thinkcar from rugged 2mm heavy-duty steel, the TPC 400 Trolley is a premium workshop companion engineered for the demands of a professional environment. It provides a streamlined solution for organizing tools, hardware, and vehicle components during teardowns.

MAIN FEATURES

- **Built to Last:** Constructed with high-grade 2mm steel sheets for maximum durability and weight capacity.
- **Versatile Organization:** Ideal for securing parts and specialized tools during complex disassembly tasks.
- **Integrated Side Hooks:** Features a dedicated hook system for quick-access storage of cables, pneumatic tools, or hanging components.
- **Professional Mobility:** Designed to keep your workspace tidy and your essential gear within arm's reach.
